Introducing the all New **BP8**

The BP8 control box is suitable for many spas, It will operate spas with 1 pump up to as many as 3 pumps + 1 Blower. It offers a universal solution for upgrading or replacing a spa pack & is packed with all the latest features.

It is the perfect upgrade solution for GS control packs, when installed with a compatible TP or Spa touch topside.

The BP8 is also a direct replacement for the BP6013G1 & 3G2 and some configurations of the BP2100 packs (Note if a 2nd pump (pump 2) is a two speed pump then you need the BP2100G0/1 system.

TP & Spa Touch Topsides

Clim8zone Ready

Balboa Reliability

The BP is the most reliable and widely used system in the industry.

BP8

Balboa Spa Pack - BP8

3 Pump System & Blower

REPLACES BP6013G1 & G3

- Works with TP Topsides
- Auxiliary Topside Compatible
- Wi-fi Enabled
- ControlMySpa™ Compatible
- Cables NOT Included
- Clim8zone Compatible
- Inc Unions for 2" pipe work

The BP8 boasts an impressive lineup of configuration options, making it a highly versatile pack that can replace most common setups on the market. This makes it a great go-to pack for spa engineers. Couple this with Spa Touch Mini, and there are not many scenarios it won't handle.

Balboa - TP Bezel Series

For Retrofitting TP Topsides

Upgrading your spa setup?

If you've removed the old topside and found the cutout is too large for your new control panel, our handy bezels make the fix simple. Designed to cover oversized openings, they ensure a clean, secure fit for your replacement topside.

SKU	Product name	Length	Width
BEZ-5572	Bezel - TP200 / VL200	216mm	88mm
BEZ-12121	Bezel - TP500	230mm	100mm
BEZ-12120	Bezel - TP600	230mm	100mm

We also offer our own in-house **Compatabezels**, crafted to mimic the look and feel of older topside generations. If a generic bezel won't work due to tricky moulding or tight spaces on your hot tub, our Compatabezels are a reliable solution.
